JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

6 in the crew; time of last exposure 6.45 a. m. Inspected the Norwegian steamship *Leander*, bound for an American port via Cuba, with 25 in the crew; vessel sails in ballast. May 4, fumigated the British steamship *Atbara*, bound for New Orleans, with 25 in the crew; vessel sails in ballast; time of last exposure 7.10 a. m. Fumigated the Norwegian steamship *City of Tampico*, bound for New Orleans, with 20 in the crew and 11 passengers; vessel sails in a general cargo; time of last exposure 7.45 a. m. Fumigated the French steamship *Louisiane*, bound for New Orleans via Tampico, with 62 in the crew and 2 cabin and 7 steerage passengers; vessel sails in general cargo. Inspected the Danish steamship *St. Thomas*, bound for Galveston via Tampico, with 50 in the crew; vessel sails in a general cargo. No quarantinable disease was reported during the week. Few mosquitoes are to be seen. Permanent sanitary improvements are gradually being made. Sanitary inspection is made in the central portion of the city.

Week ended May 11, 1907:

May 8, fumigated the Mexican schooner *Minerva*, bound for Pascagoula, with 10 in the crew; vessel sails in ballast; time of last exposure, 10 a. m. Inspected the British steamship *Ursula Bright*, bound for a port via Progreso, with 28 in the crew; vessel sails in ballast. May 9, inspected the American steamship *Merida*, bound for New York via Progreso and Habana, with 127 crew, 88 cabin and 293 steerage passengers; vessel sails in general cargo. May 10, inspected the American schooner *Henrietta J. Powell*, bound for Pascagoula, with 8 in the crew; vessel sails in ballast. Inspected the British steamship *Senator*, bound for New Orleans via Coatzacoalcas, with 40 in the crew; vessel sails in the remainder of an European cargo. May 11, fumigated the British steamship *Annis*, bound for Gulfport, with 28 in the crew; vessel sails in ballast; time of last exposure, 4.20 p. m.

No quarantinable disease was reported during the week, and there are but few mosquitoes. The underground gutters, with occasional openings leading from the yards to the streets, are at present the most favorable breeding places for mosquitoes.

PANAMA.

Report from Bocas del Toro, fruit port.

Acting Assistant Surgeon Osterhout reports as follows:

Week ended May 9, 1907. Present officially estimated population, 4,954; general sanitary condition of this port and the surrounding country during the week, good.
